the participants, the phases of the participants (solid, liquid, gas), the direction of the chemical reaction, and the amount of each substance.

Chemical equations are balanced for mass and charge, meaning the number ...

~~3 Steps for Balancing Chemical Equations~~

Balancing Equations. The chemical equation described in section 4.1 is balanced, meaning that equal numbers of atoms for each element involved in the reaction are represented on the reactant and product sides. This is a requirement the equation must satisfy to be consistent with the law of conservation of matter. It may be confirmed by simply ...
