~~Drawing and Reinventing Landscape | Wiley~~

drawing and reinventing landscape In landscape architecture, representation has become the subject of contention and much discussion. While computer techniques have been a catalyst for change across the field of design as a whole, nowhere have the conventions of representation been called into question more than in landscape architecture – which in itself is undergoing a process of reinvention.

~~Wiley: Drawing and Reinventing Landscape — Diana Balmori~~

While computerization has been a catalyst for change across many fields in design, no other design field has experienced such drastic reinvention as has landscape architecture. As the world urbanizes rapidly and our relationship with nature changes, it is vitally important that landscape designers adopt innovative forms of representation - whether digital, analog, or hybrid.

Drawing forces you to take time and really look at what is in front of you. It is a haptic experience. When you hold a pencil and retrace what you see, you can almost feel the object, its forms and structures. This can especially be experienced when sketching landscapes. Landscape architects deal with landscapes on different scales all the time.
