Globalization and Security Relations across the Taiwan Strait

In security terms states cannot tackle their own security threats efficiently, which leads to the need for states to cooperate in order to manage the threats that result from globalization. Globalization affects in two major ways issues of security in one way it diminishes their threat (positive way) and in the other it increases them (negative way).

Impact of Globalization on International Security

Globalization is becoming an ever more influential "architect" of the new international security agenda. Its impact on the evolution of the relations among states in this key area is contradictory. On the one hand, globalization contributes to accelerated development of productive forces, scientific and technological progress and ever more intensive communication among states and peoples.

Globalization and Security Relations across the Taiwan Strait

global proximity is thought to foster cooperation and to increase security. Alternatively, globalization is often seen as a tool for large hegemonic states to exercise economic primacy with little regard for human rights, labor stan-dards, or the environment. In this context, globalization is a threat which must be organized against.

Globalization and Security Relations across the Taiwan Strait

Globalization has been the source of many controversies in contemporary thinking about international relations, in terms of its reality, its content and its potential impacts. Although these debates have mainly been confined to the study of global political economy, there has been an increasing analysis of globalization in terms of its impacts on national and international security.

Introduction: The Globalization of Security? | SpringerLink

Globalization according to Akindele (1990) refers to the process of the intensification of economic, political, social and cultural relations across international boundaries. Globalization is principally aimed at the transcendental homogenization of political and socio-economic theory across the globe. It is equally aimed at
