This book presents a
classification system for
graffiti art styles that
reflects the expertise of
graffiti writers and the
work of art historian
Erwin Panofsky. Based

Get Free Graffiti School A

on Panofsky's theories of iconographical analysis, the classification model is designed to identify the style of a graffiti art piece through its visual characteristics. Tested by image cataloguers in archives, libraries, and museums, the system assists information professionals in identifying the iconic

styles of graffiti art pieces. It also demonstrates the power of Panofsky's theories to provide access to non-representational or abstract art images. The result is a new paradigm for Panofsky's theories that challenges the assumptions of traditional models. This innovative book is a valuable resource for
