This is a great story about Jimmy Doolittle. It covers his entire rather remarkable life. In the book, his wife Joe was amazing. He started in the WW1 as an instructor, patrolled the Texas Mexican Border, 1920's as a test pilot and despite what I believed, he was a fighter pilot at heart despite leading the raid on Tokyo and later running the Mighty 8th Air Force.

After Pearl Harbor, he led America's flight to victory General Doolittle is a giant of the twentieth century. He did it all. As a stunt pilot, he thrilled the world with his aerial acrobatics. As a scientist, he pioneered the development of modern aviation technology. During World War II, he served his country as a fearless and innovative air warrior, organizing and leading the devastating raid against Japan immortalized in the film Thirty Seconds Over Tokyo. Now, for the first time, here is his life story — modest, revealing, and candid as only Doolittle himself can tell it.

Brenden goes into adulthood hoping not to disappoint everyone who believes in him. His best friend Devon is brash, funny, and in over her head. The girl he is pining after, Carrie, appears to have it all together, and her twin brother Justin seems to float above everything. Their idyllic existence is rocked by an unwanted outsider, a group of secrets, and the most important revelation of all. SOMETHING WE COULD NEVER BE weaves a haunting tale of surprising resonance; a touching, often funny story of truth among a group of friends just trying to navigate the changes of the future.

Famous for leading the Tokyo Raid, America's first strike against Japan in World War II, Jimmy Doolittle led a remarkable life as an American pilot. This firsthand account by his granddaughter reveals an extraordinary individual—a scientist with a doctorate in aeronautical engineering from MIT, an aviation pioneer who was the first to fly across the United States in less than 24 hours and the first to fly "blind" (using only his plane's instruments), a barnstormer well known for aerobatics, a popular racing pilot who won every major air race at least once, recipient of both the Congressional Medal of Honor and Presidential Medal of Freedom, a four-star general, and commander of both the 8th, 12th and 15th Air Forces. This memoir provides insights into the public and private world of Jimmy Doolittle and his family and sheds light on the drives and motivation of one of America's most influential and ambitious aviators.

From the Publisher: Ted W. Lawson's classic Thirty Seconds Over Tokyo appears in an enhanced reprint edition for the sixtieth anniversary of the legendary Doolittle Raid on Japan. "One of the worst feelings about that time," Ted W. Lawson

writes, "was that there was no tangible enemy. It was like being slugged with a single punch in a dark room, and having no way of knowing where to slug back." He added, "And, too, there was a helpless, filled-up, want-to-do-something feeling that [the Japanese] weren't coming -- that we'd have to go all the way over there to punch back and get even." Which is what "the Tokyo Raiders" did. Lawson gives a vivid eyewitness account of the unorthodox assignment that eighty-five intrepid volunteer airmen under the command of celebrated flier James H. Doolittle executed in April 1942. The plan called for sixteen B-25 twin-engine medium bombers of the Army Air Forces to take off from the aircraft carrier Hornet, bomb industrial targets in Japan, and land at airfields in China. While the raid came off flawlessly, completely surprising the enemy, bad weather, darkness, and a shortage of fuel caused by an early departure took a heavy toll on the raiders. For many, the escape from China proved a greater ordeal. This anniversary edition features a foreword by noted aviation writer Peter B. Mersky and an introduction by Mrs. Ellen R. Lawson, Ted Lawson's widow, as well as twice as many photographs as the original book, several published here for the first time.

For the hundreds of thousands who buy writers' guides every year, at last there's one that tells the ugly truth: writers who can't get published are usually making a lot of mistakes. This honest, often funny, book shows them how to identify their own missteps, stop listening to bad advice, and get to work. Drawing on his experience as founding editor of *MacAdam/Cage*, Pat Walsh gives writers what they need—specific, straightforward feedback to help them overcome bad habits and bad luck. He avoids the optimistic, sometimes misleading directions often found in publishing how-to books and presents the industry as it is, warts and all. Here is the first guide that tells writers just what the odds against them are and gives them practical tips for evening them.

In an unorthodox approach, Georgetown University professor Cal Newport debunks the long-held belief that "follow your passion" is good advice, and sets out on a quest to discover the reality of how people end up loving their careers. Not only are pre-existing passions rare and have little to do with how most people end up loving their work, but a focus on passion over skill can be dangerous, leading to anxiety and chronic job hopping. Spending time with organic farmers, venture capitalists, screenwriters, freelance computer programmers, and others who admitted to deriving great satisfaction from their work, Newport uncovers the strategies they used and the pitfalls they avoided in developing their compelling careers. Cal reveals that matching your job to a pre-existing passion does not matter. Passion comes after you put in the hard work to become excellent at something valuable, not before. In other words, what you do for a living is much less important than how you do it. With a title taken from the comedian Steve Martin, who once said his advice for aspiring entertainers was to "be so good they can't ignore you," Cal Newport's clearly written manifesto is mandatory reading for anyone fretting about what to do with their life, or frustrated by their current job situation and eager to find a fresh new way to take control of their livelihood. He provides an evidence-based blueprint for creating work you love, and will change the way you think about careers, happiness, and the crafting of a remarkable life.

"A magician, a virtuoso. She can conjure up tragedy, horror, tension, suspense, the ridiculous, the vain, the romantic."
