<p>An ideal reference guide to introducing the IB Diploma in your school.</p>
<p>Spanish Cinema Against Itself maps the evolution of Spanish surrealist and politically committed cinematic traditions from their origins in the 1930s--with the work of Luis Buñuel and Salvador Dalí, experimentalist José Val de Omar, and militant documentary filmmaker Carlos Velo--through to the contemporary period. Framed by film theory this book traces the works of understudied and non-canonical Spanish filmmakers, producers, and film collectives to open up alternate, more cosmopolitan and philosophical spaces for film discussion. In an age of the post-national and the postcinematic, Steven Marsh's work challenges conventional historiographical discourse, the concept of "national cinema," and questions of form in cinematic practice.</p>

<p>Exam board: International Baccalaureate Level: IB Diploma Subject: Spanish First teaching: September 2018 First exams: Summer 2020 Develop competent communicators who can demonstrate a sound conceptual understanding of the language with a flexible course that ensures thorough coverage of the updated Spanish B Guide and is designed to meet the needs of all IB students at Standard and Higher Level. - Empower students to communicate confidently by exploring the five prescribed themes through authentic texts and skills practice at the right level, delivered in clear learning pathways. - Ensure students are able to produce coherent written texts and deliver proficient presentations with grammar and vocabulary introduced in context and in relation to appropriate spoken and written registers. - Improve receptive skills with authentic written texts, audio recordings spoken at a natural pace, and carefully crafted reading and listening tasks. - Promote global citizenship, intercultural understanding and an appreciation of Hispanic cultures through a wide range of text types and cultural material from around the world. - Deliver effective practice with a range of structured tasks within each unit that build reading, listening, speaking and writing skills. - Establish meaningful links to TOK and CAS, and identify learner profile attributes in action. The audio for the Student Book is FREE to download from www.hoddereducation.com/ibextras</p>

<p>Written by experienced practitioners this resource for Theory of Knowledge for the IB Diploma offers comprehensive coverage of and support for the new subject guide. Decoding Theory of Knowledge (ToK) is an accessible new resource that explores Areas of Knowledge, Ways of Knowing, Personal and Shared Knowledge, the Knowledge Framework and Knowledge Questions. Written in succinct and clear language, this engaging book decodes ToK concepts and helps students develop their critical thinking skills. The book offers extensive support on the new assessment criteria for the essay and presentation. Features include explanation of key concepts to consolidate knowledge and understanding; real-life situations to engage students; practical activities to develop students' thinking, writing and presentation skills; and top tips to provide further guidance and advice.</p>
--

<p>This completely new title is written to specifically cover the new IB Diploma Mathematical Studies syllabus. The significance of mathematics for practical applications is a prominent theme throughout this coursebook, supported with Theory of Knowledge, internationalism and application links to encourage an appreciation of the broader contexts of mathematics. Mathematical modelling is also a key feature. GDC tips are integrated throughout, with a dedicated GDC chapter for those needing more support. Exam hints and IB exam-style questions are provided within each chapter; sample exam papers (online) can be tackled in exam-style conditions for further exam preparation. Guidance and support for the internal assessment is also available, providing advice on good practice when writing the project.</p>

<p>What are "essential questions," and how do they differ from other kinds of questions? What's so great about them? Why should you design and use essential questions in your classroom? Essential questions (EQs) help target standards as you organize curriculum content into coherent units that yield focused and thoughtful learning. In the classroom, EQs are used to stimulate students' discussions and promote a deeper understanding of the content. Whether you are an Understanding by Design (UbD) devotee or are searching for ways to address standards—local or Common Core State Standards—in an engaging way, Jay McTighe and Grant Wiggins provide practical guidance on how to design, initiate, and embed inquiry-based teaching and learning in your classroom. Offering dozens of examples, the authors explore the usefulness of EQs in all K-12 content areas, including skill-based areas such as math, PE, language instruction, and arts education. As an important element of their backward design approach to designing curriculum, instruction, and assessment, the authors *Give a comprehensive explanation of why EQs are so important; *Explore seven defining characteristics of EQs; *Distinguish between topical and overarching questions and their uses; *Outline the rationale for using EQs as the focal point in creating units of study; and *Show how to create effective EQs, working from sources including standards, desired understandings, and student misconceptions. Using essential questions can be challenging—for both teachers and students—and this book provides guidance through practical and proven processes, as well as suggested "response strategies" to encourage student engagement. Finally, you will learn how to create a culture of inquiry so that all members of the educational community—students, teachers, and administrators—benefit from</p>

the increased rigor and deepened understanding that emerge when essential questions become a guiding force for learners of all ages.

This book presents a meticulously researched biography on Guillermo Belt Ramírez, one of Cuba's most important diplomats of the 20th century. As Ambassador, Belt represented his homeland in the United States, the UN, and the Soviet Union as the Cold War turned wartime allies into enemies.
