A young man finds himself washed ashore on a peculiar island with even more peculiar inhabitants. His memory is hazy and everyone seems to want him for one reason or another. While it's bad enough how they say that he belongs to them, it's worse that so many of their mouths water when they look at him. How is he to survive?

This book on Reinforced Concrete has been comprehensively revised with a view to make it more suitable for the updated syllabus of various Technical Institutes and Engineering Colleges of different Universities.

Features of Xanidea Mathematics (Basic) Class 10th: 1. Model Question Papers 2. Multiple Choice Questions 3. Important NCERT Problems 4. Passage-based Questions / Case-based Questions 5. CBSE Sample Question Paper / Examination Papers-2020 (Solved)

Development 2. Sector of the Indian Economy 3. Money and Credit 4. Globalisation and the Indian Economy 5. Consumer Right

This pioneering text provides a holistic approach to decisionmaking in transportation project development and programming, whichcan help transportation professionals to optimize their investmentchoices. The authors present a proven set of methodologies forevaluating transportation projects that ensures that all costs andimpacts are taken into consideration. The text's logical organization gets readers started with asolid foundation in basic principles and then progressively buildson that foundation. Topics covered include: Developing performance measures for evaluation, estimatingtravel demand, and costing transportation projects Performing an economic efficiency evaluation that accounts forsuch factors as travel time, safety, and vehicle operatingcosts Evaluating a project's impact on economic development and landuse as well as its impact on society and culture Assessing a project's environmental impact, including airquality, noise, ecology, water resources, and aesthetics Evaluating alternative projects on the basis of multipleperformance criteria Programming transportation investments so that resources can beoptimally allocated to meet facility-specific and system-widegoals Each chapter begins with basic definitions and concepts followedby a methodology for impact assessment. Relevant legislation isdiscussed and available software for performing evaluations ispresented. At the end of each chapter, readers are providedresources for detailed investigation of particular topics. Theseinclude Internet sites and publications of international anddomestic agencies and research institutions. The authors alsoprovide a companion Web site that offers updates, data foranalysis, and case histories of project evaluation and decisionmaking. Given that billions of dollars are spent each year ontransportation systems in the United States alone, and that thereis a need for thorough and rational evaluation and decision makingfor cost-effective system preservation and improvement, this textshould be on the desks of all transportation planners, engineers,and educators. With exercises in every chapter, this text is anideal coursebook for the subject of transportation systems analysisand evaluation.

Coverage of each topic includes examples and problems, all of which are original and derived from realistic applications, such as optical configuration for automatic inspection in industry, surveying systems, robot navigation, X-ray imaging, computerized radiography, microscopy vision and measurements, laser Doppler technique and flow study, non-contact measurement of temperature, acousto-optical scanners, spectral analysis, and more.-BOOK JACKET.

THE NOTABLE ASPECTS OF THE BOOK ARE AS FOLLOWS: The book is divided into four subjects : History, Geography, Political Science and Economics. Each chapter begins with a flow chart explaining the basic concepts. All chapters consist of NCERT Solutions in a separate section :NCERT Corner!. Objective type questions include : Multiple Choice Questions : Fill in the blanks : True and False : Sequencing questions : Correct and Rewrite questions : Assertion-Reason questions : Source based questions Very short, Short and Long Answer questions based on latest CBSE guidelines. HOTS (High Order Thinking Skills) are given to think creatively, critically and innovatively. Evaluate yourself through Self-Assessment Test given at the end of every chapter to enhance your learning process. Three Periodic Test comprise of Pen Paper Test and Multiple Assessments ,which are given as part of the internal assessment. Five Model Test Papers (solved and unsolved) are provided for practice for final examination.
