Mindfulness meditation has been scientifically shown to get at the root of the problem of stress: our brain's over-active tendency to see potential disaster everywhere we look. 1 When we sit mindfully, we become aware of the constant sense of urgency and discontent in our mind. What's revolutionary about meditation is that instead of feeding this stress by doing more or speeding up, we do ...

Siblings, Alexa and Chester, and their wondrous bedtime-adventure with Mindful Owl. One moonlit night, Mindful Owl magically appears to teach siblings, Alexa and Chester about mindfulness. They learn to slowly breathe in and out, to be present and aware, to have calm and loving thoughts, and to visualize. Suddenly they are flying through the beautiful blue sky and Owl takes the children on a fun adventure to meet other animal friends. During the journey Alexa and Chester learn interesting information about the animals and also learn important lessons about friendship. They learn the value of sharing and being kind and compassionate. Throughout the story the reader participates by discovering each new animal by guessing who will be next and they

Appreciation for the book: This is such a powerful book by Navnish Kaur - simple yet life changing yoga poses for a healthy and happy life. These yoga poses with positive affirmations are good for anyone of any age. If kids can be taught yoga and mindfulness meditation from their childhood, I strongly believe, we can reduce, and eventually, eliminate violence, bullying and any form of social harm in generations to come. I highly recommend this book to kids. Sending you blessings for good health and

scripts for young children. Simply turn on the tape or read out loud to them, and within seconds, they will feel their hyperactive mind coming to a crawl. Mindful meditation is a new way to relax, breathe, and learn the power of self-awareness. Today, more people than ever are turning to meditation as a way to eliminate stress in an increasingly noisy world. Meditation is no longer some weird new-age practice used by fringe-thought leaders. It is now universally recognized as a way to attain inner peace. Many good things have been said about mindful meditation by great minds. Apple co-founder and former CEO, Steve Jobs, was famously a proponent of mindful meditation and a regular practitioner. And it's no secret why. Practicing meditation allows you to focus for longer periods of time

without giving in to things like distractions and feelings of anxiety. You do not need anything to start meditating today. It could be as simple as clearing your mind. The problem here is that many have a hard time doing just that. But there is good news. Following a mindful meditation script allows one to move into a meditative state without having to do any of the leg work. All that you need to do is follow the script. This is especially good for children who may not be mature enough to clear their minds on their own. Every kid loves a good bedtime story, and using the mindful meditation script in lieu of traditional stories, like Snow White and the Seven Dwarfs, is a good introduction to mindful meditation for kids. There is no preferred age range for these scripts. They will work well anywhere

from ages 3 to 9. They are a great tool for building vocabulary in children early on. And if that wasn't convincing enough, each meditation script includes some overall message or lesson that the child can apply in their own life. This book includes: Four meditation bedtime story script hybrids that focus on a different animal habitat Fantastic stories about fun animals, including forest, desert, jungle, and ocean animals A valuable lesson for each story In addition: Children learn about different animals while listening to the engaging story This book encourages your child to put down the screens and focus on listening for a prolonged period of time This is a good way to encourage your child to go to sleep by listening to the scripts Each story allows your child's imagination to flourish. A follow up to Pico Iyer's essay "The Joy of Quiet," *The Art of Stillness* considers the unexpected adventure of staying put and reveals a counterintuitive truth: The more ways we have to connect, the more we seem desperate to unplug. Why might a lifelong traveler like Pico Iyer, who has journeyed from Easter Island to Ethiopia, Cuba to Kathmandu, think that sitting quietly in a room might be the ultimate adventure? Because in our madly accelerating world, our lives are crowded, chaotic and noisy. There's never been a greater need to slow down, tune out and give ourselves permission to be still. In *The*

Art of Stillness is a TED Books release. Iyer investigate the lives of people who have made a life seeking stillness: from Matthieu Ricard, a Frenchman with a PhD in molecular biology who left a promising scientific career to become a Tibetan monk, to revered singer-songwriter Leonard Cohen, who traded the pleasures of the senses for several years of living the near-silent life of meditation as a Zen monk. Iyer also draws on his own experiences as a travel writer to explore why advances in technology are making us more likely to retreat. He reflects that this is perhaps the reason why many people—even those with no religious commitment—seem to be turning to yoga, or meditation, or seeking silent retreats. These aren't New Age fads so much as ways to rediscover the wisdom of an earlier

age. Growing trends like observing an Internet Sabbath—turning off online connections from Friday night to Monday morning—highlight how increasingly desperate many of us are to unplug and bring stillness into our lives. The Art of Stillness paints a picture of why so many—from Marcel Proust to Mahatma Gandhi to Emily Dickinson—have found richness in stillness. Ultimately, Iyer shows that, in this age of constant movement and connectedness, perhaps staying in one place is a more exciting prospect, and a greater necessity than ever before. In 2013, Pico Iyer gave a blockbuster TED Talk. This lyrical and inspiring book expands on a new idea, offering a way forward for all those feeling affected by the frenetic pace of our modern world.
