Child nursing involves everything from nursing a sick newborn to an adolescent road accident victim. You'll need to consider the care and support needed by the wider family, including parents and carers.

Children's nurse | Health Careers

As a children's nurse (or paediatric nurse) you'll play a key role in assessing the nursing needs of the child, taking into account their medical, social, cultural and family circumstances. Being able to communicate appropriately is vital for this role and you'll need to show empathy and sensitivity when speaking with the children and their parents or carers.
