Research In New Ionic Liquids -  
[newsite.enartis.com](http://newsite.enartis.com)

One use of ionic liquids is as a solvent in separation processes, organic molecules dissolved in the ionic liquid can be cleanly distilled off leaving the ionic liquid behind, this is a big area of research for ionic liquids. Having high

Ionic liquid - Wikipedia

Ionic Liquids are a new class of purely ionic, salt-like materials that are liquid at unusually low temperatures.

Currently, it's "official" definition uses the boiling point of water as a point of reference: "These are ionic compounds which are liquid below 100
